Notice of Annual General Meeting

Iluka Resources Limited
Annual General Meeting
Tuesday 24 April 2018, commencing 9.30am (WST)
Perth Convention and Exhibition Centre

Dear Shareholder

I am pleased to invite you to Iluka Resources Limited's 2018 Annual General Meeting. The Meeting will be held on Tuesday 24 April 2018 at the Perth Convention and Exhibition Centre. Details of the business of the Meeting are contained from page 7. The following pages include a summary of the key attributes of the 2017 year; a financial summary, including information on the balance sheet; and your Company's dividend framework. Detailed information is available in the Annual Report accessible at www.iluka.com.

Your participation in the Annual General Meeting is important to Iluka and a valuable opportunity for the Board to consider with shareholders the performance of the Company.

2017 marked a year of transition for Iluka following the appointment of Tom O'Leary as Managing Director in September 2016. Key developments included:

- the integration of the Sierra Rutile operation, which was acquired in December 2016;
- a substantial improvement in mineral sands market conditions;
- changes in operational settings – reflecting both improved markets and a detailed review of Iluka's production portfolio and projects following the Sierra Rutile acquisition; and
- project approval of Cataby.

Despite reporting an unsatisfactory financial loss for the year, Iluka's underlying performance in the midst of this transition was strong with the company ending 2017 in sound shape from a financial, operational and governance perspective.

In last year's Annual Report I conveyed the Board's cautious optimism in relation to mineral sands markets, which at that time had experienced an extended period of subdued conditions. As such, it was pleasing to witness these markets continue to recover over the course of 2017. Looking ahead, it is the Board's view that the approach adopted by the company in recent times has positioned Iluka to benefit from improving demand and prices for its products, leading to the creation of value for shareholders in the process.

Iluka's full year financial result was an after tax loss of \$171.6 million. The higher mineral sands revenues achieved – driven by increased volumes and prices and a higher contribution from the Mining Area C iron ore royalty, resulted in a strong underlying performance. Free cash flow was \$322 million with Iluka ending 2017 with net debt of \$183 million, down from \$506 million at the beginning of the year.

**THE COMPANY ENDED 2017 IN SOUND
SHAPE FROM A FINANCIAL, OPERATIONAL
AND GOVERNANCE PERSPECTIVE**

The Board declared a final dividend of 25 cents per share, fully franked. This is consistent with Iluka's dividend framework to return to shareholders a minimum of 40 per cent of free cash flow not required for investment purposes or balance sheet activity. Adding Iluka's interim dividend for 2017 of 6 cents per share, fully franked translates to a total dividend for 2017 of 31 cents per share, fully franked.

Protecting the safety and wellbeing of Iluka's people lies at the heart of the business and is an area of continuing emphasis for the Board and Executive. The company's total recordable injury frequency rate increased from 4.4 to 4.8 in 2017, with one less injury offset by a slight reduction in hours worked. The lost time injury frequency rate increased from 0.4 to 0.9. As 2017 was a baseline year for data collection at Sierra Rutile following the implementation of Iluka's safety incident reporting framework, these frequency rates and comparisons to 2016 performance exclude that operation. Sierra Rutile ended 2017 with a total recordable injury frequency rate of 2.2 and a lost time injury frequency rate of 1.0. At 31 December 2017, the combined Group (Iluka Resources including Sierra Rutile) total recordable injury frequency rate was 2.8 and lost time injury frequency rate was 1.0. This will be used for 2018 comparisons.

Environmental incident reporting was also introduced at Sierra Rutile in 2017, with 20 incidents reported for the year. Excluding Sierra Rutile, Iluka recorded a reduction in environmental incidents from 11 in 2016 to 7 in 2017. As reported in December, the company completed detailed rehabilitation planning for its closed Virginia operation in the United States and identified potential additional obligations relating to past rehabilitation activity. This resulted in a US\$90 million increase to the rehabilitation provision, which is a disappointing outcome and one that has received close examination by the Board and Executive.

As part of the commitment made to align Iluka's sustainability practices with the International Council on Mining and Metals (ICMM) Framework for Sustainable Development, the company prepared a separate, detailed sustainability report in April 2017 for the 2016 reporting year. This improvement in transparency and reporting was recognised through Iluka's first listing on the Dow Jones Sustainability Index (DJSI) Australia as a leading sustainability performer. Standalone sustainability reports will remain an annual feature of Iluka's communication with shareholders and external stakeholders more broadly.

The Board has reviewed the current remuneration structures for the Managing Director and senior management and determined to implement a new Executive Incentive Plan (EIP) in 2018. Under the new arrangements, the current Short and Long Term Incentive plans will be combined and rewards largely delivered in Iluka shares with deferred vesting. The EIP is designed to support the delivery of Iluka's strategic objectives and further align management's interests with those of shareholders. Further details can be found in the Remuneration Report.

On other governance matters, the Board participated in an externally facilitated review of its effectiveness, skills and competency inventory. I am pleased to report that this review identified a number of strengths including a clear, shared sense of the Board's role; an excellent relationship between the Chair, Board and Managing Director; sound governance policies and processes; and a good mix of experience, skills and knowledge among Directors.

As always, the challenge for the Board is continuous improvement in building a governance framework and capability in line with the evolution of Iluka's operations and strategic priorities for the future. This will be an area of ongoing focus and consideration.

I would like to conclude my letter by acknowledging the leadership of Tom O'Leary and the performance of his Executive team. Eighteen months into his tenure, Tom is focused on delivering on commitments made and ensuring Iluka does what it says it will do in a methodical, transparent and commercial manner. He is supported by an experienced and capable Executive that has adapted well to Iluka's transition and I thank them, and the broader Iluka workforce, for their collective contribution and dedication over the past year.

I would also like to record my appreciation for the contribution and wise counsel of my fellow Directors throughout 2017. In February 2018 it was announced that Rob Cole would join Iluka's Board from 1 March. Rob brings with him extensive extractive industry experience in Australia and abroad, including in West Africa, as well as a strong and successful record in executive and non-executive roles. His broad business experience, especially in project management and marketing, combined with the business insights he will bring, further strengthens the Board as Iluka moves to its next phase of development.

Finally, I extend my thanks to Iluka's shareholders for their continued support and interest in the progress and development of the business.

Greg Martin
Chairman

¹ Underlying minerals sands and Group EBITDA excludes adjustments including impairments, Sierra Rutile transaction costs and changes to rehabilitation provisions for closed sites. Iluka's share of Metalysis Ltd's losses, which are non-cash in nature, are also excluded.

1 Mineral sands revenue

Mineral sands revenue increased by 40% to \$1,017.5 million. Zircon/rutile/synthetic rutile (Z/R/SR) revenue increased by 38% to \$959.1 million, its highest level in five years. This result reflects improved conditions in mineral sands markets increasing Iluka's sales prices and volumes, combined with higher volumes following the acquisition of Sierra Rutile in December 2016. Iluka's Zircon Reference Price increased in three consecutive quarters achieving a realised zircon standard and premium price of US\$1,128 per tonne in Q4, a 40% increase from the start of the year. Rutile prices closed 13% higher, with approximately 40% of Sierra Rutile sales volume on fixed price contracts. Z/R/SR sales volumes grew strongly, up 27%, reflecting increases across all products.

2 Underlying mineral sands EBITDA¹

Iluka's underlying mineral sands EBITDA almost tripled relative to 2016, increasing to \$300.9 million. This result reflects the combination of strong revenue growth and reduced non-production costs (exploration, resource development and corporate costs), down \$61.5 million, following Iluka's sustainable business review. Cash production costs increased in 2017 with the inclusion of Sierra Rutile operating costs, and inventory was drawn down in line with Iluka's planned reduction in inventory levels. Restructure and idle capacity charges of \$73.1 million were again significant in 2017, reflecting the operational setting changes with respect to the Hamilton mineral separation plant and having Jacinth-Ambrosia mining and concentrating activities suspended for the full year.

3 Mining Area C EBITDA

Iluka's royalty income from Mining Area C increased by 25% to \$59.6 million. Iron ore prices rose 16% and sales volumes from the royalty area increased 8%. No capacity payments were received in 2017 or 2016.

4 Underlying Group EBITDA¹

The 2017 underlying Group EBITDA was \$360.5 million, up from 2016, reflecting the combination of increased revenue, non-production cost reductions and increased Mining Area C royalty payments.

5 Net loss after tax

Iluka recorded a net loss after tax of \$171.6 million in 2017 which included the following:

- \$185.4 million pre-tax impairment expense. Iluka's decision to idle the Hamilton mineral separation plant from October 2017 resulted in \$151.4 million impairment recorded at the half year; and \$30 million impairment of Iluka's investment in UK-based, titanium technology company, Metalysis Ltd.
- An increase of \$127.4 million in relation to the rehabilitation provision for closed sites. This increase relates to Iluka's closed US operations in Virginia and Florida and follows detailed rehabilitation planning that has identified potential additional obligations relating to past rehabilitation activities.

6 Free cash flow

2017 free cash flow was \$321.9 million, reflecting the strong underlying EBITDA result.

Operating cash flows contributed \$391.7 million and Mining Area C contributed \$59.9 million.

Capital expenditure in 2017 was \$93.1 million. Early works activities and execute capital of \$35 million was incurred for Cataby during the year, with remaining expenditure focused on Sierra Rutile projects and Balranald (New South Wales).

7 Net (debt)

Net debt was reduced by 64% in 2017. As at 31 December 2017, net debt was \$182.5 million, down from \$506.3 million at the end of 2016. Gearing (net debt / net debt + equity) was reduced to 17.1% at the end of 2017 (2016: 31.5%).

8 ROE and ROC

Return on shareholders' equity was (20.1)% and return on capital was (11.6)%, reflecting the company's reported loss for the year.

This is consistent with Iluka's framework and reflects the underlying strength in the 2017 result. Iluka continues to target credit metrics broadly consistent with investment grade credit metrics and future dividend decisions will take into account balance sheet position and capital expenditure requirements.

Ordinary Resolutions

1. Resolution 1 – Election of Director – Robert Cole

Robert (Rob) Cole, LLB (Hons), BSc

Rob Cole was appointed to the Board on 1 March 2018. Pursuant to Article 16.4(b)(ii) of the Constitution, a Director appointed as an addition to the Board must not hold office without re-election past the next Annual General Meeting. In accordance with that Article, Mr Cole retires and, being eligible, offers himself for election as a Director.

Mr Cole is an experienced business leader and has worked for over 30 years in the energy and resources industry. He has held a diverse range of senior positions in commercial, corporate, marketing and business strategy and planning functions. Mr Cole is currently Chairman of global online-liquefied natural gas trading platform company, GLX Group, and has worked closely in all aspects of the company's development and marketing.

Mr Cole was previously Managing Director of oil and gas production and exploration company, Beach Energy where he led a whole of business review and successfully implemented a new strategic direction for the company. Mr Cole also spent over eight years at Woodside Petroleum Limited across a number of senior positions in commercial, corporate and legal areas, including Executive Director, Executive Vice President (Corporate and Commercial) and General Counsel. Prior to his time at Woodside, Mr Cole was a Partner at the law firm King & Wood Mallesons.

Mr Cole is currently Chairman of the Western Australian electricity utility, Electricity Generation and Retail Corporation (trading as Synergy) and is Chairman of Southern Ports Authority (a West Australian state owned authority and operator of Bunbury, Albany and Esperance ports).

Mr Cole is an independent non-executive Director, and a member of the Nominations and Governance Committee and the People and Performance Committee.

The Board (with Mr Cole abstaining) recommends that Shareholders vote in favour of the Resolution.

2. Resolution 2 – Re-election of Director – James (Hutch) Ranck

James (Hutch) Ranck, BSE (Econ), FAICD

James (Hutch) Ranck retires under the director rotation provisions of Article 17.1 of the Company's Constitution and, being eligible, has offered himself for re-election as a Director.

Mr Ranck was appointed to the Board in January 2013, and has been Chairman of the People and Performance Committee since May 2016. For over 30 years, Mr Ranck held senior management positions with DuPont, both in Australia and internationally in finance, chemicals, pharmaceuticals and agriculture. 3. Resolution 3 – Adoption of Remuneration Report

The Remuneration Report is set out in the Directors' report in the Company's Annual Report.

The Remuneration Report:

- describes the policies behind, and the structure of, the remuneration arrangements of the Company and the link between the remuneration of Key Management Personnel and the Company's performance; and
- sets out the remuneration arrangements in place for each Director and for the Managing Director and other Key Management Personnel.

The Corporations Act requires the Company to put a resolution to Shareholders that the Remuneration Report be adopted. In accordance with section 250R(3) of the Corporations Act, the vote on Resolution 3 is advisory only and does not bind the Directors or the Company.

A voting exclusion applies to Resolution 3 as set out in the Notice of Meeting.

The Board recommends that Shareholders vote in favour of the Resolution.

4. Resolution 4 – Grant of securities to the Managing Director

During 2017 the Board, together with the People and Performance Committee, undertook an extensive review of the effectiveness of the Company's existing reward framework in the context of the Company's strategy and business objectives. A particular focus was placed on whether the Company's current incentive structure supports Iluka's long-term strategy and the creation and delivery of value for Shareholders.

As a result of the review, the Company has adopted a new Executive Incentive Plan for implementation in 2018 (the **EIP**). The EIP combines the Company's existing short-term and long-term incentive arrangements into a simplified annual incentive award that drives performance against strategic and financial metrics supporting the creation of long-term Shareholder value. Further information regarding the EIP can be found in Iluka's Remuneration Report on pages 67 to 69 of our 2017 Annual Report.

Shareholder approval is sought for any inaugural grant of Restricted Shares and Performance Rights to the Managing Director, Tom O'Leary, under the EIP for the performance year commencing 1 January 2018 (the **2018 EIP offer**).

Explanatory Memorandum

(a) Terms of the 2018 EIP offer

Under the 2018 EIP offer, the Managing Director has the opportunity to earn an award of cash, Restricted Shares and Performance Rights, with the total value of any award determined at the end of a 12 month performance period (1 January 2018 – 31 December 2018) based on his performance against annual performance scorecard measures (outlined below).

The Managing Director's "at target" opportunity under the 2018 EIP offer is \$1,862,000, being 133% of his total fixed remuneration (TFR) and his maximum opportunity is \$2,800,000, being 200% of his TFR.

Delivery of award

At the end of the 12 month performance period, the Managing Director's performance will be tested and the value of any award will be determined (EIP outcome). Any award will be provided as a mix of:

- cash (15%);
- Restricted Shares (52%), subject to trading and disposal restrictions; and
- Performance Rights (33%), subject to a further relative total shareholder return (TSR) gateway test.

Any cash component will be paid at the end of the 12 month performance period on or around March 2019. If approved at the Meeting, any grant of Restricted Shares and Performance Rights will be made under the Iluka Equity Incentive Plan Rules at the end of the 12 month performance period following the release of the Company's 2018 results in February 2019 (and in any event, no later than 3 years after the date of the Meeting).

Vesting of securities

Each Restricted Share is a fully paid ordinary Share in the Company which is subject to trading and disposal restrictions. Under the 2018 EIP offer, the Restricted Shares granted to the Managing Director will be released in equal tranches annually over 3 years. That is, one third of the Restricted Shares will be released from restriction following the completion of each of the financial years ending:

- 31 December 2019;
- 31 December 2020; and
- 31 December 2021.

Each Performance Right is a right to acquire one fully paid ordinary Share in the Company on satisfaction of a performance condition. Under the 2018 EIP offer, the Performance Rights granted to the Managing Director will vest subject to a relative TSR gateway test, tested at the end of a 4 year period (1 January 2018 – 31 December 2021). If the TSR gateway measure is satisfied, all Performance Rights will vest. If the TSR gateway measure is not satisfied, all of the Performance Rights will lapse.

Additional terms

Additional terms of the 2018 EIP offer are set out below:

Annual performance scorecard measures and weightings	<ul style="list-style-type: none">• Financial measures 35%: earnings per Share; return on equity and all in unit cash costs of production.• Strategic measures 35%: a combination of Group and individual strategic objectives derived from the corporate long-term plan.• Sustainability measures 15%: targets related to safety and environmental objectives based on a combination of industry best practice and continual improvement.• Production measures 15%: production targets across the Group's operating mines.
Performance periods	<ul style="list-style-type: none">• The EIP outcome will be determined based on the Managing Director's annual performance scorecard outcome at the end of the 12 month performance period (1 January 2018 – 31 December 2018).• Any cash component of the EIP outcome will be paid at the end of the 12 month performance period.• Any Restricted Shares component of the EIP outcome will be allocated at the end of the 12 month performance period and released in equal tranches annually over 3 years.• Any Performance Rights component of the EIP outcome will be granted at the end of the 12 month performance period and may vest subject to meeting a further gateway test based on the Company's relative TSR over a 4 year period (1 January 2018 – 31 December 2021).
Equity allocation methodology	The number of Restricted Shares and Performance Rights to be allocated or granted to the Managing Director will be based on the relative proportion of the EIP outcome for that component, divided by the 5 day volume-weighted average price of Shares commencing on the day after the release of the Company's 2018 results announcement.
Gateway Test for vesting of Performance Rights	The Performance Rights granted to the Managing Director will only vest into Shares if Iluka's relative TSR over the 4 year TSR performance period ranks at the 50th percentile or greater against a comparator group comprising the ASX 200 Resources Index (excluding companies primarily engaged in the Oil and Gas sector and non-mining activities). If the relative TSR gateway test is not satisfied, all of the Performance Rights will lapse.
Dividend rights	<ul style="list-style-type: none">• Restricted Shares: the Managing Director will receive dividends on Restricted Shares.• Performance Rights: No dividends will be paid on Performance Rights. For Performance Rights that vest, a cash payment equivalent to dividends paid by Iluka during the period between grant of the Performance Rights and vesting, will be made at or around the time of vesting.
Cessation of employment	In the event the Managing Director ceases employment for reasons of resignation or termination for cause, all of his Restricted Shares and Performance Rights will be forfeited or lapse (as applicable). In the event of retirement or where the Managing Director ceases employment for any other reason, the Restricted Shares and Performance Rights will remain on foot and subject to the original terms of the award.
Clawback	The Board has power under the Iluka Equity Incentive Plan Rules to clawback incentives that have vested and that have been paid or awarded to the Managing Director in certain circumstances. For example, Restricted Shares and Performance Rights may be lapsed or forfeited (as appropriate) if the Managing Director acts fraudulently or dishonestly or if there is a material misstatement or omission in the accounts of a Group company.
Change of control	In the event of a takeover or other transaction that in the Board's opinion should be treated as a change of control event, the Board has a discretion to determine the vesting of some or all of the Restricted Shares and Performance Rights.

How to Vote on Items of Business

All your securities will be voted in accordance with your directions.

Appointment of Proxy

Appointing the Chairman of the Meeting as proxy: If you wish to appoint the Chairman of the Meeting as your proxy, mark the box in Step 1. If you leave Step 1 blank, or your named proxy does not attend the Meeting or does not vote on a poll in accordance with your instructions, the Chairman of the Meeting will be your proxy.

Voting 100% of your holding: Direct your proxy how to vote by marking one of the boxes opposite each item of business. If you do not mark a box your proxy may vote or abstain as they choose (to the extent permitted by law). If you mark more than one box on an item your vote will be invalid on that item.

Voting a portion of your holding: Indicate a portion of your voting rights by inserting the percentage or number of securities you wish to vote in the For, Against or Abstain box or boxes. The sum of the votes cast must not exceed your voting entitlement or 100%.

Appointing a second proxy: If you are entitled to cast two or more votes you may appoint up to two proxies to attend the meeting and vote on a poll. If you appoint two proxies you must specify the proportion of votes or number of securities for each proxy, otherwise each proxy may exercise half of the votes. When appointing a second proxy write both names and the proportion of votes or number of securities for each in Step 1 overleaf.

Voting restrictions for members of the key management personnel (KMP): Please note that if you appoint a member of the KMP or one of their closely related parties as your proxy, they will not be able to vote your proxy on Resolutions 3 and 4, unless you direct them how to vote or you appoint the Chairman of the Meeting as your proxy. If the Chairman of the Meeting is or becomes your proxy, but you do not mark a voting box for Resolutions 3 and 4, then by completing and returning this form, you will be expressly authorising the Chairman of the Meeting to exercise your proxy on Resolutions 3 and 4 as he thinks fit, even though the resolution is connected with the remuneration of the Company's KMP.
